

NOBAFILM®

REF 171617

Product Description and Purpose

The sterile incision film is made of a transparent, hypoallergenic polyurethane film which is coated with a hypoallergenic adhesive. NOBAFILM® is waterproof, but steam and air permeable. The dimensions are 16 cm x 17 cm total size, 10 cm x 17 cm adhesive surface. Microorganisms cannot permeate the film. It is used to cover the operation area in a sterile way. Owing to the fingerlifts on both sides, the surgical site can be optimally covered. The mechanical barrier function minimizes the introduction of germs into the surgical site.

Contraindications

Known allergy against a component listed below

Composition

Polyurethane film, polyacrylate adhesive

Normative und gesetzliche Anforderungen

NOBAFILM® is a medical product according to the MPG, the directive 93/42/EEC and the regulation MDR (EU 2017/745) and is classified as class Is, according to rule 4.
